

UNIVERSITÄT ZU LÜBECK
STIFTUNGSUNIVERSITÄT
SEIT 2015

DGBMT

2nd Symposium
Pediatric Medical Devices
Safety & Protection by Innovation & Development
November 16, 2018 | Lübeck, Germany

Save
the Date

www.pedmeddev.org

Symposium topics include:

- Ideas and needs from the bedside: the clinicians' view
- Future trends in pediatric medical technology (e. g. microsystems, robotic systems)
- Breakout sessions: neonatology, implants and osteosynthesis, laparoscopy, imaging, global health, digital health, regulatory affairs, computational modeling and simulation
- Bringing pediatric medical devices back to the bedside: the manufactures' view
- Finding clinical needs and network activities

Lübeck is an ideal place to meet new contacts and establish collaborative initiatives with clinicians, innovators, engineers and representatives from industry and authorities. By the development of safe and innovative technology-driven medical solutions, we want to improve the care of children with you.

We cordially invite you to Lübeck.

Dr. med. Ludger Tüshaus
Dr.-Ing. Robert Wendlandt

Prof. Dr. med. Lutz Wunsch
